LinkedIn: <https://www.linkedin.com/in/ahmedshaban>

Professional Summary:

Fresh graduate Flutter developer with a strong foundation in Dart and practical experience building cross platform mobile applications using Clean Architecture. Proficient in State Management solutions such as Bloc, GetX, and Cubit, as well as REST APIs and Firebase integration and experience in Flutter Test. Passionate about writing clean, maintainable code and implementing modern UI/UX designs. Eager to contribute to impactful projects and grow within a professional development team.

Work Experience:

Front-end & Flutter Developer - Information Technology Institute (ITI) — Internship (July 2025 — November 2025)

- Developed production-ready mobile screens using Flutter & Dart, applying UI/UX best practices to enhance usability and design consistency.
- Implemented State Management using **Bloc**, **Cubit**, and **GetX** in different mini-projects.
- Integrated REST APIs and handled JSON parsing, error handling, and data loading states.
- Developed features connected to Firebase Authentication, Firestore, Storage, and push notifications.
- Collaborated with teammates using Git & GitHub (branches, pull requests, commit strategy).
- Followed Clean Architecture (Presentation – Domain – Data) in building structured modules.
- Participated in weekly code reviews and debugging sessions to improve code quality.
- Delivered a final project applying routing, animations, caching, and responsive UI for Android & iOS.

Education:

- **Bachelor's Degree in computer science – Faculty of Computer and Information, Minya University.** **September 2020 – January 2025**
- **Graduation project: A+**

Courses & Certifications:

- **Master Git & GitHub: Essential Skills for Developers - Udemy** **May 2024 - June 2024**
- **Flutter Payment Integration: Stripe, PayPal & More! - Udemy** **March 2024 - April 2024**
- **Learn Flutter GetX Course 2024 - Udemy** **September 2023 - January 2024**
- **Mastering Flutter: Responsive & Adaptive UI Design - Udemy** **July 2023 - August 2023**
- **Flutter – Animations from Zero to Hero - Udemy** **May 2023 - June 2023**
- **Deep Dive into Clean Architecture in Flutter - Udemy** **November 2022 - April 2023**
- **Flutter Advanced – Clean Architecture & MVVM - Udemy** **July 2022 - September 2022**
- **Complete Flutter & Dart Development Course - Udemy** **August 2021 – May 2022**

Projects:

- **E-Commerce Application - Flutter Developer | Flutter, Dart, Cubit, Firebase, Stripe API.**

Link: https://github.com/ahmedshaban-blip/CodeAlpha_E-Commerce-Application

Key Features: Developed a cross-platform e-commerce app with user authentication (login & registration), product browsing with category filtering, cart management with real-time updates, and secure Stripe integration for seamless payments. Designed a modern, intuitive UI based on e-commerce best practices, leveraging Cubit for efficient State Management and ensuring secure data handling across the user journey.

Tech Stack: Flutter, Dart, Cubit (State Management), Firebase Authentication, Stripe API, REST APIs, Responsive UI Design, Secure Storage.

- [Movies Application - Flutter Developer | Flutter, Dart, Cubit, Rest Api.](#)

Link: https://github.com/ahmedshaban-blip/Flutter_Movies_App

Key Features: Discover now-playing and upcoming movies from TMDb with an elegant UI, detailed movie information, favorites management, light and dark themes, bilingual support (English & Arabic), smooth animations, and a fully responsive design built with clean Cubit architecture.

Tech Stack: Flutter, Bloc (Cubit), Dio, Get It, Shared Preferences, TMDb API, flutter_screenutil, google fonts, easy localization, Clean Architecture.

- [Coffee Application - Flutter Developer | Flutter, Dart, Cubit.](#)

Link: <https://github.com/ahmedshaban-blip/CoffeeApplication>

Key Features: A beautiful welcome screen with animated transitions, a categorized home screen with search and promotional banners, a detailed product page with size selection and favorite functionality, a complete order screen with editable address and payment summary, and real-time delivery tracking using OpenStreetMap — all built with clean Cubit architecture and efficient State Management.

Tech Stack: Flutter, Bloc (Cubit), Equatable, OpenStreetMap, responsive UI design, animations, and snackbar feedback.

- [Flashcard Quiz Application - Flutter Developer | Flutter, Dart, Cubit.](#)

Link: https://github.com/ahmedshaban-blip/CodeAlpha_FlashCardQuizApplication

Key Features: Interactive flashcards with flip animations, complete CRUD operations for flashcard management, study mode with question/answer toggle, navigation controls with progress tracking, persistent local storage, responsive design across multiple screen sizes, and comprehensive error handling with empty State Management.

Tech Stack: Flutter, Dart, Cubit State Management, SharedPreferences, Material Design 3,

- [RSS Reader Pro Application - Flutter Developer | Flutter, Dart, Cubit, xml.](#)

Link: <https://github.com/ahmedshaban-blip/RSS-Reader>

Key Features: Fetching and parsing RSS feeds with image extraction, pagination, sharing, and browser integration within a modern UI based on Clean Architecture.

Tech Stack: Flutter, Clean Architecture, Bloc (Cubit), http, xml, url_launcher, share_plus, equatable.

- [Scan QR- Flutter Developer | Flutter, Dart.](#)

Link: https://github.com/ahmedshaban-blip/scan_qr

Built a barcode scanner app using Flutter and barcode scan package.

- [Scientific Research Discover - Flutter Developer | Flutter, Dart, Cubit, Rest Api.](#)

Link: https://github.com/ahmedshaban-blip/scientific_research_discover

Search, filter, and bookmark academic papers using public APIs.

- [Random Quote Generator - Flutter Developer | Flutter, Dart, Cubit.](#)

Link: https://github.com/ahmedshaban-blip/CodeAlpha_RandomQuoteGenerator

Is a lightweight app that displays random motivational quotes to inspire users instantly.

Skills:

- **Technical Skills:** Flutter & Dart, Clean Architecture (MVVM), State Management (Bloc, GetX, Provider), REST APIs, Flutter Test, Firebase Console, JSON, Git/GitHub, Android Studio, VS Code, UI/UX Implementation, Flutter Animations, Payment Gateway (Stripe & PayPal Integration).
- **Soft Skills:** Problem Solving, Team Collaboration, Time Management, Fast Learner, Analytical Thinking.

Languages:

- **Arabic:** Native
- **English:** Good
