Professional Summary:

Skilled in building engaging, responsive, and intuitive web user interfaces with strong expertise in React for dynamic web applications and a focus on clean, maintainable, and scalable code aligned with industry best practices. Proficient at integrating front-end applications with databases and RESTful APIs to ensure seamless data flow and reliable functionality across the web stack.

Work Experience:

Information Technology Institute (ITI) — Internship

July 2025 — November 2025

- Program: Front-end and Cross-Platform
- Role: Front-end and Cross-Platform Developer
- Highly skilled developer specializing in building engaging user interfaces for both web and mobile platforms.
- Strong expertise in React for dynamic web applications.
- Experienced with Flutter and React Native for high-performance, cross-platform mobile apps.
- Focused on delivering responsive, intuitive user experiences from a single codebase.
- Proficient in integrating front-end applications with various database systems and APIs to ensure seamless data flow and functionality.
- Passionate about writing scalable, clean, and maintainable code.

Education:

- Bachelor's Degree in computer science.
- Faculty of Computer and Information, Minya University.
- Graduation project: **A+**

September 2020 – January 2025

Courses:

- | | | |
|---|-------|----------------|
| • Payment Integration: Stripe, PayPal & More! | (ITI) | November 2025 |
| • React Native Application | (ITI) | October 2025 |
| • React.js & Next.js Course | (ITI) | September 2025 |
| • HTML, CSS and JavaScript Course | (ITI) | August 2025 |

Projects:

- **Enjez Website for providing services :** [Live Demo](#)

Link : <https://github.com/ahmedshaban-blip/Enjez>

Key Features: Developed a streamlined service booking platform with an easy-to-use interface for browsing and booking services. Integrated real-time booking confirmations, messaging system for client-provider communication, and instant notifications for both users and agencies. Implemented service management with dynamic CRUD operations, allowing admins to easily manage services. Agency profiles are fully customizable, and users can choose services with flexible details like date and special requests. Delivered seamless experience with mobile-first design and real-time booking updates, ensuring smooth client interaction with agencies.

Tech Stack: React 18, Redux Toolkit, Tailwind CSS, Firebase Authentication, Firebase Firestore, Push Notifications, Stripe/PayPal (payment integration), React Router v6, Vercel (Hosting), i18next (multi-language support).

E-Commerce Website: [Live Demo](#)

Link: <https://github.com/ahmedshaban-blip/E-Commerce-WebSite>

Key Features: Developed a modern, full-featured e-commerce web application enabling secure user authentication (registration, login, and email verification), advanced product browsing with category filtering, Wishlist, and real-time cart management. Integrated PayPal SDK for seamless checkout and secure payments. Included a powerful admin dashboard for full product CRUD operations, inventory tracking, order management, and real-time analytics. Designed a responsive, fast-loading, and accessible user interface for a smooth shopping experience across all devices.

Tech Stack: HTML5, CSS3, JavaScript (ES6+), Firebase Authentication, Firebase Firestore, Supabase Storage, PayPal SDK, RESTful APIs, Animate.css, AOS, Local Storage, Service Workers

- **Up-Course E-learning Website: [Live Demo](#)**

Link : <https://github.com/ahmedshaban-blip/E-Learning-WebSite-With-React-JS>

Key Features: Developed a modern, responsive e-learning platform supporting dual authentication (Email/Password and Google OAuth) with secure Firebase backend. Implemented course browsing, enrollment, PayPal-powered payments, and real-time data updates. Integrated instructor dashboards with full course CRUD operations, Supabase-based media management, and YouTube playlist embedding. Delivered multilingual support (English & Arabic), theme switching (light/dark), and analytics tracking, ensuring a fast, accessible, and mobile-first learning experience powered by Vite.

Tech Stack: React 18, Redux Toolkit, Tailwind CSS, Vite, Firebase Authentication, Firebase Firestore, Supabase Storage, PayPal SDK, React Router v6, Formik, i18next (multi-language), Vercel (Hosting).

Skills:

- **Technical Skills:** React for building interactive web UIs and SPA architectures, Redux StateManagement, Tailwind For Ui , AsyncStorage For localStorage.
- **Soft Skills:** Problem Solving, Team Collaboration, Time Management, Fast Learner, Analytical Thinking.

Languages:

- **Arabic:** Native
- **English:** Good
