PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience in building cross-platform mobile applications using Flutter and Dart. Skilled in state management (Bloc, Cubit, GetX, Provider), Firebase integration, REST API consumption, and responsive UI development. Experienced in collaborating with cross-functional teams and delivering scalable, user-friendly mobile solutions.

WORK EXPERIENCE

Flutter Developer

Truck World | Saudi Arabia - Full Time

Jan 2026 - Present

- Develop and maintain mobile applications using Flutter and Dart.
- Build responsive and user-friendly UI based on design specifications (Figma, Adobe XD).
- Integrate RESTful APIs and handle
- Collaborate with designers and backend developers to ensure seamless integration.
- Assist in app deployment on Google Play and Apple App Store.
- Use Git for version control and collaborate effectively within a team.

Flutter Developer

Sawa | Alexandria - Part Time

Jan 2026 - Present

- Develop and maintain mobile applications using Flutter and Dart.
- Build responsive and user-friendly UI based on design specifications (Figma, Adobe XD).
- Integrate RESTful APIs and handle

Front-end & Flutter Developer

Information Technology Institute (ITI) - Internship | Minya

Jul 2025 - Dec 2025

- Developed production-ready mobile screens using Flutter and Dart while applying UI/UX best practices.
- Implemented multiple state management approaches including Bloc, Cubit, and GetX across mini-projects.
- Collaborated with team members using Git and GitHub workflows, including branches, pull requests, and structured commit practices.
- Contributed to improving usability, responsiveness, and design consistency across applications.

EDUCATION

Bachelor's Degree in Computer Science

Sep 2020 - Jan 2025

Minya University

SKILLS

Flutter

Dart

React Native

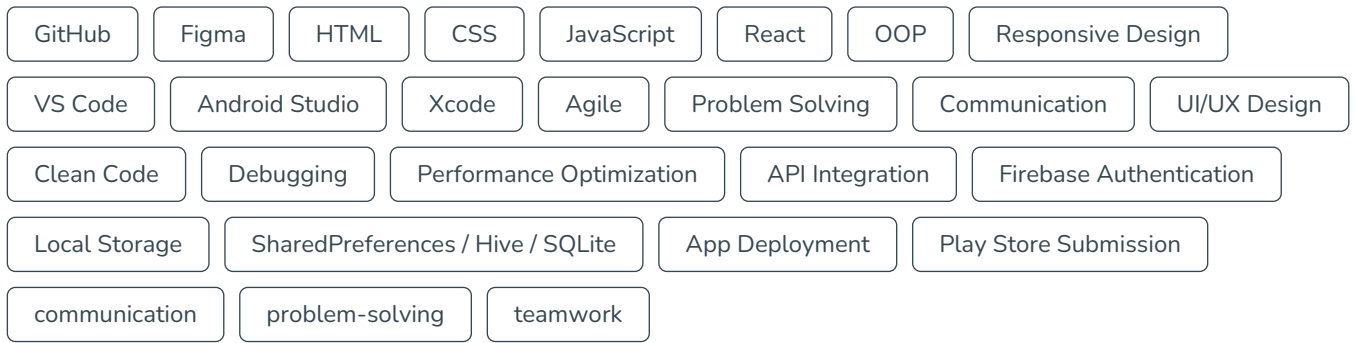

Firebase

REST API

Postman

MVVM / MVC

Git

PROJECTS

CV Builder (https://github.com/ahmedshaban-blip/Cv_Builder)

Built a cross-platform Flutter application that enables users to create, edit, and export ATS-friendly resumes. Integrated Firebase Authentication and real-time database features to provide a seamless and secure user experience across devices.

Tech: Flutter, Dart, Firebase, Google Sign-in, Firebase Auth, Provider State Management

Rss Reader (<https://github.com/ahmedshaban-blip/RSS-Reader>)

Developed a Flutter-based RSS reader application capable of fetching, parsing, and displaying articles from valid RSS feed URLs. Applied Clean Architecture and Cubit state management to improve maintainability and scalability.

Tech: Flutter, Dart, Xml, Cubit, REST API

Enjez – Services Mobile App (<https://github.com/ahmedshaban-blip/EnjezMobileAppVersion>)

Built a cross-platform services mobile app with secure authentication and role-based navigation. Implemented service browsing, search, and category filtering, plus a full multi-step booking flow (provider, schedule, payment, tracking). Integrated PayPal payments and Cash options, with a modern responsive UI and smooth state management.

Tech: React Native, PayPal, Firebase, Google Authenticator

Flashcard Quiz Application (https://github.com/ahmedshaban-blip/CodeAlpha_FlashCardQuizApplication)

Interactive flashcards with flip animations, complete CRUD operations for flashcard management, study mode with question/answer toggle, navigation controls with progress tracking, Managed empty states and implemented responsive design across multiple screen sizes, ensuring comprehensive error handling and smooth user experience in the absence of data.

Tech: Flutter, Dart, local storage, cubit

Scan QR (https://github.com/ahmedshaban-blip/scan_qr)

Developed a QR and barcode scanning application using Flutter with camera integration for real-time code detection and scanning.

Tech: Flutter, Dart, Camera use
